Quick Start

Thank you for choosing Core XL Electric Dab Rig, the most user friendly and affordable e-rig on the market.

Unlock the device

- Click the power button 5 times to turn the device on/off.

Changing Heat Settings

Click the power button 1 time to cycle through heat settings.

Purple / Lowest	320f after preheat
Yellow / Second lowest	330f after preheat
Blue / Middle	350f after preheat
Green / Middle high	395f after preheat
White / Second highest	450f after preheat
Red / Highest	500f after preheat

How to fire the Core XL

- Click the power button 2 times to engage pre-heat, the light will flash the selected color to indicate it is heating and the device will vibrate when ready for use. To end a heating cycle early, click the power button one time.

- For maximum vapor production pre-heat on the red setting, when it vibrates, cancel and double click to start the pre-heat again. Then start inhalation after the vibrate. This can be done with any of the settings. Please try it normally on the highest setting before doing this as it can cause certain materials to burn onto the ceramic heater!

Checking battery level

- Click the power button 4 times to show your battery level.
- Red/Low
- White/Medium
- Green/Full

How to clean

- To clean the heaters, wipe them out after each use using a q-tip or paper towel. If there is a little oily residue left in the heater this will assist in removing marks.
- For further cleaning you can dip a q-tip in ISO alcohol or your chosen cleaning alcohol, then gently and repeatedly wipe the heater in a circular motion. Always dry, then fire the heater for at least 30 seconds after an alcohol clean to evaporate off any remaining residue.
- For full heater cleans the atomizer can be removed from the Core XL and soaked in your chosen cleaning solvent. Sonic cleaners are very effective for safely and thoroughly removing any carbon build up from your heater.
- To ensure good electrical contact between the atomizer and Core base, clean the threading every few sessions with an alcohol wipe.

Charging

- Plug the USB-C cable into the charging port and connect to a charging brick that complies with all applicable regulations. The maximum input is 5V/2A and the quickest charge is 1 hour 45 minutes. The Core XL light will flash red while charging and solid green when fully charged.

Safety features

- Low coil resistance
- Short-Circuit
- Over-heat
- Over-charge
- Low battery/Over discharge
- CE, RoHS, FCC Certification

What's inside:

- 1 x Core XL Power Base with 6 heat settings
- 1 x Grenade Bubbler
- 1 x XL Stainless Steel Carb Cap Holder
- 1 x Upgrade Vortex Carb Cap + Silicone Cap Lanyard
- 1 x Black Silicone Power Base Cover
- 1 x V5 XL Atomizer
- 1 x USB-C Cable
- 1 x Dab Tool
- 2 x Replacement O-Ring for Carb Cap Holder
- 2 x Alcohol Wipes
- 5 x Cotton Swabs
- 1 x Carrying Case

⚠Warnings

When the Core XL light flashes 3 times this indicates something is not functioning properly, warning lights are listed below.

- Blue - Short-circuit warning
- Green - No atomizer warning
- White - Over-heat warning
- Red - Low battery warning

- Do not handle atomizer and bowl after use. Allow time to cool.
- Do not allow water in the bottom chamber of glass.
- Do not let water seep into the atomizer.
- Do not store device with water in the glass.
- Attach / detach glass carefully, do not force.
- Several short inhales produce more vapor.
- Do not overfill the bowl.
- Keep away from moisture and high humidity.
- Store in a cool dark place when not in use.

Fill glass with water just above the air-holes. Do not fill glass while attached to base.

i. Water will damage base and atomizer

ii. Do not overfill glass

Align inlet hole on the front of the glass with atomizer. Carefully push the front of glass into the base, then the back.

Warranty information

- For all warranty claims please contact the store you purchased from.
- The Core XL power base is covered by a one year manufacturer warranty against defects.
- The atomizer is covered by a one week manufacturer warranty against defects.

While atomizers are expected to last much longer than one week, they can be damaged by mishandling and misuse. We understand that not everyone will use the device daily or immediately so offer a one week warranty, from the date of delivery, to report any issue with your atomizer.

SZ Crossing is not responsible for, and accepts no liability for, the use or misuse of this product by the customer. All SZ Crossing products are designed and sold for adult use and for legal purposes only. It is the end user's responsibility to be aware local laws and regulations and adhere to them.
